

FIRE CAPTAIN STUDY GUIDE

For questions 1 – 2, you will be asked to identify mistakes in sentences. Look at each sentence and decide if it has a mistake in spelling, punctuation, or grammar. Some sentences have no mistakes. No sentence has more than one type of mistake. Do not count capital letters when looking for mistakes. Use the following rules to mark your answer sheet:

If the mistake is in SPELLING, mark choice (A)

If the mistake is in PUNCTUATION, mark choice (B)

If the mistake is in GRAMMAR, mark choice (C)

If there is NO MISTAKE, mark choice (D)

1. The more attention you give to every facet of the hiring process, the better you're chances are of a positive hiring experience.
2. As a Fire Captain, what are your responsibilities in the areas of affirmative action and equal employment opportunity.

For question 3, you are to organize sentences into a paragraph. Read each of the following sets of sentences. Arrange each set so that the sentences best form an effective and logical paragraph (some sets may already be in their most effective and logical order). Then, for each set of sentences, select the answer that represents the best sequence.

3. What is the best sequence for the following four sentences?
 1. Some buildings have standpipe systems which serve fire hose outlets in various parts of the structure.
 2. A pre-plumbed system is especially important when firefighters must move water to great elevations.
 3. Otherwise tall buildings require the laying of hose up ladders, stairwells, fire escapes or the use of hose hoists.
 4. These systems allow the fire service to quickly place streams into operation in areas which may be difficult to reach.
- A. 1, 2, 3, 4
B. 1, 4, 2, 3
C. 2, 3, 1, 4
D. 2, 3, 4, 1

FIRE CAPTAIN STUDY GUIDE

4. The serious losses in life and property resulting annually from fires are cause for deep concern. Such unnecessary waste can be reduced. The substantial progress made in the science of fire prevention and fire protection during the past 40 years is convincing proof that the means are available for limiting this unnecessary destruction.

The main thought in the paragraph above is :

- A. Fires contribute to the destruction of life and property
 - B. The best fire protection methods cannot prevent some fire losses
 - C. Losses from fire have been steadily reduced during the past 40 years
 - D. If available means were applied, losses in life and property from fire could still be reduced materially.
5. According to Public Resource Code (PRC) 4446, an incinerator is illegal if:
- A. It has 1/4" vent openings
 - B. It is constructed from a 55 gallon drum
 - C. The screen completely covers the top of the barrel with a 3/16" mesh
 - D. The area around the incinerator has been cleared 8 feet of flammable vegetation
6. According to Public Resource Code (PRC) 4290 all driveways shall provide a traffic lane with a minimum width of:
- A. 10 feet
 - B. 12 feet
 - C. 16 feet
 - D. 18 feet
7. According to the California Fire Code, hospitals are classified as occupancy:
- A. Group B
 - B. Group E
 - C. Group H
 - D. Group I
